Style, Quality
& Great Value

APRIL 2019

Welcome

Dorridge in white

Chester Horizontal Small Rib with Waterford windows

Vertical with "SmartPass" - In Anthracite Grey

Fort Doors is all about great products at everyday pricing. Built to last and packed with features that make them a pleasure to use, they are exceptional for their good value and striking good looks.

This brochure showcases an extended range of doors that are sure to make an impact. CE marked and manufactured under our ISO 9001 quality systems, you can be sure of safety, reliability and quality.

All Fort Doors products are CE marked and built within our audited ISO 9001 quality systems

BRITISH MADE
BRITISH OWNED

Drayton - Golden Oak

Stylish Choices

Up and over doors in an array of designs made from steel, timber and composite are complemented with the many styles also available in side hinged opening action. Insulated aluminum and steel roller doors complete the range.

Windows add a further option to personalise a design to your taste, whilst automation is a great addition to open your door at the touch on the remote control.

See pages 6 to 17

Steel Up and over doors are designed for a long and reliable life and are available with retractable or canopy lifting gear.

See page 13

Our "smartpass" up and over doors have a built in pass door - perfect for those times when you want access to your garage without a separate side door. It opens just like a normal up and over door when you need it and opens just like a side door when you don't!

See pages 18 to 25

Traditional side opening doors are brought right up to date with all round lip seals and secure locking.

See pages 26 to 27

Timber also available in side-hinged

If you love the look of real timber our cedar range is the perfect choice.

See pages 28 to 33

Composite also available in side-hinged

Composite is an incredibly strong, dent resistant modern composite laminate with a better strength to weight ratio than steel. The door face is devoid of joints, seams, rivets or fastenings to detract from its good looks.

See pages 34 to 35

Roller garage doors made with insulated aluminium slats or factory coated steel are an increasingly popular choice. The Fort Roller 77 has powered remote control operation as standard and the Fort Roller Steel has electric option as an option.

Powerful, classy, reliable

All up and over doors are ready for automation.

Automation

Fort Sprint

Automation for retractable doors gives a quiet smooth remote opening of your garage door.

Up and over garage doors

STEEL

Steel Up & Over Garage doors are a timeless and reliable choice. Choose a style and colour and you have a strong and secure door that will look good for years to come with the minimum of effort.

Single doors up to 9'0" wide and 7'0" high are supplied with canopy lifting gear as standard.

Retractable lifting gear is available as an option on all door sizes up to 9'0" wide and 7'0" high and standard for all doors over this size.

Made to last

All doors feature a strong sub-chassis with bracing plates to ensure rigidity of the door panel.

Up and over doors feature simple but effective cable operated latches that are engaged and disengaged with the locking handle.

The internal lock handle.

Canopy gear is spring assisted and provides a simple and effective solution for doors up to 8'0" wide.

The inside face of our canopy doors showing the twin point lock latches and the high quality corrosion protected components.

Retractable doors run on smooth polymer rollers in suspended tracks and are perfect for remote control operation.

All Fort Doors are CE marked and comply fully with current safety legislation. Canopy doors feature an anti-drop device in the unlikely event that a lifting cable should fail.

Lock handles

All up and over doors have a black lock handle as standard.

Security is solid and dependable. The attractive black handle sits easily in the hand and is lockable. Strong steel bracing ensures the door is a barrier to forced entry.

Chrome effect handle option

White handle option

Dorridge

Dorridge with windows

Twelve features give the Dorridge a lovely balanced appearance that is further enhanced with Stockton Cross windows. The Dorridge is also available with Plain and Waterford windows.

Side hinged garage doors

STEEL

Traditional side hinged doors are easy to operate and so simple. All our up and over styles are also available in side hinged configurations and also with matching personnel side entrance doors.

Steel Side hinged garage doors are available 50:50 up to 10'0" wide.

2/3:1/3 opening up to 9'0" wide.

Horizontal rib opening up to 8'0" wide.

Steel bracing gives side hinged doors a robust feel in every day use. The standard configuration shown above uses twin latches on the active leaf and shoot bolts on the inactive leaf. Hold-open stays are available as an option.

Made to last

The internal lock handle.

Side hinged, personnel and smart pass doors employ high grade corrosion protected hinges for smooth operation and elimination of leaf "sag".

All doors feature a strong sub-chassis with bracing plates to ensure rigidity of the door panel.

Standard doors have top and bottom cable operated lock latches to the active leaf and shoot bolts to the inactive leaf for dependable security.

Timber garage doors

Doors with these icons are also available as side hinged.

The natural beauty of timber shines through on our range of up and over doors. Benefiting from the same excellent opening mechanism, locking and strong steel chassis, these doors add a classic touch to any home.

If you are fitting doors side by side, let us know and we'll craft a pair finished to a similar shade - remember wood is a natural material and no two doors are alike!

Open For Infil

If you'd like to create your own design, we offer an open chassis into which you can fit your own panels up to a maximum weight of 7.5 kilograms per square metre.

Monarch (also available in horizontal)

Poplar Duraply timber

Monarch (also available in horizontal)

Poplar Duraply timber

The Monarch, has exceptional durable properties due to an innovative ply to ply treatment.

The Monarch is also a Marine Plywood substitute, with a great environmental story, 'Plantation Poplar Plywood modified to make it as durable as tropical marine plywood'.

The product range is available with either FSC® or PEFC certification.

Up and over garage doors

COMPOSITE 3 CROWN

Composite garage doors are low maintenance.

Composite is an incredibly strong, dent resistant modern laminate with a better strength to weight ratio than steel. The door face is devoid of joints, seams, rivets or fastenings to detract from its good looks.

All doors are supplied fully finished, won't warp, shrink or rust and are virtually maintenance free. Doors are available in white gloss and woodgrain styles in up and over and side hinged designs - see page 32.

Georgian

Optional Pre-Fitted Frames

All doors are available with the option of a pre-fitted steel frame* that provides simple installation and a stable platform for door operation.

*Double doors are supplied with frames as a knock-down kit.

Frames have an exterior powder coating available in white, brown or black. Please specify the colour required when ordering. Woodgrain doors are also available with a flat coloured frame that tones-in with the woodgrain shade of the door.

Roller garage doors

INSULATED ALUMINIUM

The Fort Roller 77 insulated roller garage door is an intelligent design solution creating a smart and stylish door that features vertical travel, insulation, all round weather protection and remote control operation as standard.

The most compact garage door type, the door rolls round a barrel above the door, using the minimum of space inside the garage. Indeed, when space is very tight, a compact version, the Fort Roller 55 Compact, is available that requires just 205mm of headroom.

The aluminium lath is corrosion resistant and filled with a CFC free dense foam that provides insulation and strength. Laths are 77mm deep and interlock to form the door curtain. The compact version has 55mm deep lath to allow a tight roll, reducing the headroom requirement.

The aluminium side guide tracks that enclose the ends of the door curtain provide solid fixing points for the door and limit the passage of draughts around the curtain.

A Secured by Design certified version is also available.

Inside the door is very neat and compact. The door has a wall-mounted control unit with courtesy light and is shown with the full box option that fully encloses the door mechanism.

Colour Options

Doors are available in classic low gloss solid colours and woodgrain effects.
*Denotes available on the Fort Roller 55 Compact.

Laminate Woodgrain Textured

STEEL

The Fort Roller Steel rolls up vertically and does not swing out in front of the garage. You can park right up to the door and have more storage space in the roof of the garage.

The continuous curtain of a Fort Roller Steel is very strong, yet flexible enough to coil around the door barrel. A neat smooth mid grey inner face is simple to keep clean and reflects light into the garage. Colourful, durable finishes really make this a versatile choice.

It's secure - the unique profile and aluminium bottom rail reinforce our the doors against intruder penetration. Strength of the door is matched with twin locking bars for a secure closure.

Apart from admiring the finish of the door, you'll rarely notice your door, so effortless and light is the operation of the spring assisted door curtain.

The option of remote control allows the door to be opened or closed either by means of a compact hand transmitter or by a wall mounted control box in the garage. Either way, the door opens and closes smoothly and quietly.

Colour Options

Doors are available in leathergrain textured solid colours and wood effects.

Product Guarantees

Fort Doors manufactures products to the highest standards and your garage door only leaves our factory after a thorough quality and testing process.

In the unlikely event of a warranty claim, please contact your dealer that installed your garage door, and supply them details of the serial number on the side of the door. Your dealer will supply further details of your claim with proof of purchase, to the Warranty Department at Fort Doors.

1. Warranty Period.

A warranty covering the safe and reliable operation of the Fort Doors garage door for a period of 10 years from the date of purchase is given to the original purchaser.

The purchaser is given a 2 year warranty for all springs; tracks; rollers; and hinges for normal use, whereby normal use constitutes no more than 5 operations (open/close) per day. We recommend that they are inspected annually by a competent engineer. The warranty period for replacement parts is 6 months or for the remainder of the warranty period.

2. Requirements.

Warranty is valid in the country where the garage door was purchased.

The product must have been purchased through one of our authorised partners and a serial number and receipt of purchase provided.

The warranty only covers damage to the garage door.

3. Performance.

During the warranty period we will rectify defects to the Fort product that can be proved to be material or manufacturing faults. At our discretion we will either exchange; repair; or reduce the price. We will not accept any costs for dismantling; installation; or delivery.

The warranty does not cover damage caused by:

- Improper transport and fitting.
- Repairs by non-qualified or non competent individuals.
- External influences such as fire, water, alkaline solutions, acid, bird droppings or abnormal atmospheric pollution.
- The use of non Fort Doors parts without the approval of the manufacturer.

Additional Information:

- It is a fundamental condition of this guarantee that the product has been installed, maintained and serviced correctly and is used solely for the purpose for which it was designed.
- Incorrect installation, maintenance and service will invalidate this warranty.
- The door must be kept in a clean condition and free from impact damage.
